

Adventure Kit

for "The Moon's Visit to the Garden"

A quiet invitation to wonder — for little ones and their grown-ups

*Colour the moon, the garden, and the beam of light —
and imagine what it feels like to be visited by the moon*

Moonlight Activity

- 
- 
- *On a clear night, step outside and look at the moon. What does it look like tonight? Is it full, half, or a thin crescent? Draw it below, or write a few words about how it makes you feel.*

A Question to Wonder About

- 
- *If the moon could visit you every night, what would you tell it?*
 - Write or draw your answer below

I am watched over by the moon

Name: _____

Date: _____

*Even when you cannot see it, the moon is always there — watching,
listening, returning.*

For Grown-ups

- 
- 
- ▶ *This Adventure Kit is a quiet invitation to notice the moon — not as a distant object, but as a gentle presence that returns every night. You do not need a garden or a telescope to do these activities. A window, a balcony, a few moments of looking up are enough. Let the child lead, and let the moon teach us that some things are always there, even when we cannot see them.*
